Belur Malaria Control Work

Adverting to Government Order No 1537-39/Ml 97-41-2 dated 19th August 1941 sanctioning the continuance of the Malaria Control Unit at Belur for the year 1941-42, I have the honour to state that the Unit is to be continued for a further period of two years or till such time as the permanent measures proposed are completed in the interest of the health of the town As mentioned previously the malaria is steadily going down since 1939 when the splenic index was 49 4 before the control work was commenced The last survey in 1941 showed the index to be 22 3, this being a significant reduction I request you to be so good as to obtain sanction to the marginally noted estimate for continuing the scheme Items 3 and 4 are increased in the present estimate over the former on account of the increase in the price of Paris Green which is now gone up by nearly 300 per cent and the other item 4 is increased to Rs 200/- as the Rs 150/- was found insufficient for reasons already explained last year and had to be increased by supplementary grant I request that a sum of Rs 2,720/- may kindly be sanctioned from 'Town Imprvement Grants'

1	One Asst Sanitary Inspector on Rs 30/- plus Rs 5/- in grade Rs 25-1-35	420/-
2	Five coolies on Rs 10/- each	600/-
3	Paris green	1500/-
4	Contingencies	200/-
	Total	Rs2720/-

I have the honour to be,
Sir,
Your most obedient servant,

Director of Public Health
